

Absorb Those Numbers

Marnie Stern

As your breath catches up from where you began
The memory's the sum of
Hey now

To see you at the end
My marathon man
Your breath catching fire
Some say the clock is the memory framed
Some know the memory by what it's named

As your breath catches up from where you began
The memory's the sum of
Hey now where does this begin and
Hey now where does it end?
Hey now where does this begin and
Hey now where does it end?

To see you at the end
My marathon man
Your breath catching fire
Catching fire
Catching fire

Hey now where does it end?

As your breath catches up from where you began
The memory's the sum of
Hey now where does this begin and
Hey now where does it end? (4x)

To see you at the end
My marathon man
Your breath catching fire
Catching fire
Catching fire
