

Building a Body

Marnie Stern

My legs they walk with great precision
My arms they hang low
But my heart beats fast
Can you feel my hands clench?

If you build it, it will, it will come, yes they say
So I'm building my body for you here today
If you build it, it will, it will come, yes they say
So I'm building my body for you here today

Uh uh uh my eyes. They're blinking all the time
My mind is moving in lots of directions
But my heart. Beats too fast
Can you feel my hands clench?

If you build it, it will, it will come, yes they say
So I'm building my body for you here today
If you build it, it will, it will come, yes they say
So I'm building my body for you here today
