

# Gimme

Marnie Stern

Out on the highway  
Going the distance  
Decent is stable  
Man in the water  
Caught on the run now

Things are different in the body  
Things are different in the city

I would have run through that  
Even the natives  
Caught in the right number  
Man in the water  
Caught on the run now  
Caught on the run now

Things are different in the body  
Things are different in the city

I hope and trade in the mirror  
But not like you can  
Bright stars are filling inside of me  
And I won't share

Embrace mine  
Embrace mine

Things are different in the body  
Things are different in the city
