

Better take a girl dancing in the woods  
Said I'm your book, I am the pages  
But your book sits in a cage  
While I see god, and god sees action

Love, come with me  
Come with me

Will this lonely life get any better?  
At least this song will last forever  
Will this lonely life get any better?  
Ive got holes to mend

Better take a look, I'm dancing away  
Said i know you, You've got to chase it  
But that fool sits in a cage  
While I see god, and god sees action
