## **Doin' Dirt**

Oh, yeah, oh yeah

Hey you, don't wanna love you on the telephone You're hanging up and now I'm all alone Baby you got me doing dirt, doing dirt, doing dirt And now I wanna find you but you're off the run My heart's exploding like a burning sun I know you like it when it hurts, when it hurts, when it hurts

Hold me we're dancing in the dark of the night You're shining like a neon light I light you up, when I get inside So won't you touch me? cause everybody's watching us now We're putting on a show for the crowd So turn it up baby make it loud

Hey you, say that you're only having fun and then You call me up at 3am again Baby you got me doing dirt, doing dirt, doing dirt And now all that I got is just a microphone To let you know that I'm all alone I know you like it when it hurts, when it hurts

Hold me we're dancing in the dark of the night You're shining like a neon light I light you up, when I get inside So won't you touch me? cause everybody's watching us now We're putting on a show for the crowd So turn it up baby make it loud

Yeah, come on

So right now, I wanna leave with you right now I wanna be with you all night, in the car let's go Yeah let's take it home, let's take it home, let's take it home

So right now, I wanna leave with you right now I wanna be with you all night, in the car let's go Yeah let's take it home, let's take it home, let's take it home

Hold me we're dancing in the dark of the night You're shining like a neon light I light you up, when I get inside So won't you touch me? cause everybody's watching us now We're putting on a show for the crowd So turn it up baby make it loud
