

## Sword And Bullet

Maroon

"Some find their death by sword and bullet, and some by fluids down the gullet."

Open your eyes in an ice cold room  
Wake up lifeless your body has been consumed  
Body and soul have been separated  
You pray to your god but demons is all that you've created  
All alone in your darkest hour  
Laid out on your deathbed all life has been devoured  
All you think of is one last day  
Drugs won't help you now to the heavens you pray  
All your life has been wasted away  
Your imploring won't help you because it's too late  
Fuck your God, you are your own master  
Only you're to be blamed for a life long disaster

LIQUID CRAWLS DOWN YOUR THROAT  
NOW YOU FEEL ALIVE!  
SMOKE GNAWS ON YOUR LUNGS  
NOW YOU FEEL ALIVE!

All alone in your darkest hour  
Laid out on your deathbed all life has been devoured  
All you think of is one last day  
Drugs won't help you now to the heavens you pray  
Still you're not afraid you still see hope  
Drown your panic in fluids and kill your fear with dope  
This useless heart barely beats in a chest  
After a life of ignorance cancer is winning at last

LIKE SWORD AND BULLET - LIQUID STRIKES YOU DOWN  
ACID AND POISON - FINALLY MADE YOU DROWN

Open your eyes in an ice cold room  
Wake up lifeless now!
