

Favorite Girl

Marques Houston

I've been in 9s and 10s
Some came around again
I've seen a dime or two
They don't compare to you
So many things I like
Too many to even name
I wanna be your man
I hope you feel the same

Baby, All I wanna do is hold you
And show you how much I adore you
Want you, need you, baby

You're, you're my favorite girl
Baby you're the only one
I wanna give you the world... yeah
You're, you're my favorite girl
You really really got it goin' on
Everything that a man could want
You're my favorite girl

{You're my favorite girl, uh huh}

Girl, I'm not playin' games
I'm in with other days
I figure what's the use
There's really no excuse
Many good qualities
I can't think of one complaint
That's why you're number one
And all the others ain't love

You're everything a man like me could ever want
Give me what I need and nothing that I don't
Girl I promise that I will always have your back
You're all I need, you're my favorite girl

You're my favorite girl
You're my favorite girl
You're my favorite....
