

## Lifetime

Marques Houston

The darkest skies over me, yeah  
I regret not having loyalty to you  
My simple thoughts became a reality  
My stepping ways fought with your sanity

I can't escape from the pain I caused you  
I'm just a man looking what to undo

And I don't know how you put up with what I do  
And that's what I appreciate of your fires  
Baby, don't ever say goodbye again  
You're beautiful, you're perfect, amazing friend  
I wanna hold you tight, never let you go  
Apologize so that you know  
To never ever say goodbye  
'Cause true love lasts a lifetime

And I don't know why you picked me to be your man  
Why did I break your heart, why did I cheat back then?  
Baby, I'm constantly drowning in my ocean of tears  
How can I gain your trust and make it up to you again?

I can't escape from the pain I caused you  
I'm just a man looking what to undo

And I don't know how you put up with what I do  
And that's what I appreciate of your fires  
Baby, don't ever say goodbye again  
You're beautiful, you're perfect, amazing friend  
I wanna hold you tight, never let you go  
Apologize so that you know  
To never ever say goodbye  
'Cause true love lasts a lifetime

Don't ever say goodbye again  
You're perfect, you're beautiful, you're an amazing friend
