

Make It Last Forever

Marques Houston

Feeling good, well now
But I'll be waiting patiently
My baby girl is here I sat back girl
And I'm thinking that it's time we take it
All full high love girl
We've waited long enough girl

Baby I think it's time
I think it's time we get it on baby
Just take it up a notch girl
And I promise that I'll make it last forever
And baby I think it's time
I think it's time we get it on baby
Just take it up a notch girl
And I promise that I'll make it last forever

And baby take the care off you
And pretend it's all if you don't want me too
Baby I think it's time we take it
To another level girl
We've waited long enough girl

And baby I think it's time
I think it's time we get it on baby
Just take it up a notch girl
And I promise that I'll make it last forever

Baby I think it's time
I think it's time we get it on baby
Let's take it up a notch girl
And I promise that I'll make it last forever

And baby I think it's time
I think it's time we get it on baby
Just take it up a notch girl
And I promise that I'll make it last forever

And baby I think it's time
I think it's time we get it on baby
Just take it up a notch girl
And I promise that I'll make it last forever
