

So Right for Me

Marques Houston

Hey baby tell me your name
And tell me where you're from
Give me your number
Let me call you up
Sometime, girl I think you're so fine
And I thought maybe we could hook up
and go out on the town
Hop in my ride and let me show you 'round my hood
Thinkin' on the first

Of something good
I don't wanna waste your time
I don't wanna pressure you
I really wanna get next to you
Baby you . . .

Baby you so right for me
Baby you so fly to me
Baby you and I could be
(You and I were meant to be girl)
Can't you see, so right for me

Can't blame you
Overprotected of an open heart
Looking for a reason to break this heart
Cause I know what you want
Sweet lady, give me a chance
and Ima prove you wrong
I got a feeling we can get along just fine
Never mind the guys that come with different lines

See I don't want to waste your time
I don't want to pressure you
I really wanna get next to you
Baby you . . .

Baby you so right for me
Baby you so fly to me
Baby you and I could be
(You and I were meant to be girl)
Can't you see, so right for me

Girl I'm telling you I need a chance baby
The other girls I know are all the same
I really need someone to know me
Love me, touch me oh girl
Like you baby, I know you meet a lot of guys this way, yea

See I don't want to waste your time
I don't want to pressure you
I really wanna get next to you
Baby you . . .

Baby you so right for me
Baby you so fly to me
Baby you and I could be
Can't you see, so right for me
