

# Walk Away

Marques Houston

Your truly beautiful you know  
Just thought I'll do a little something  
To let you know  
Check it out

I can truly say  
Its not everyday  
Someone makes me feel this way  
Just like a star shooting past the moon  
It felt like a holiday  
I wanna take you away  
To another place  
Where the love just over flows babe  
You were like my rain that needed to fall  
And the flowers would not grow

Has anybody ever told you  
That your eyes shine like pearls  
Has anybody ever told you  
That your one special girl  
Has anybody ever showed you  
That love is here to stay  
cuz you stole my heart on this very day  
And I can't let you walk away

You took me by surprise  
And lit up my eyes  
Like a child with a brand new toy  
I never had so much inspiration  
Now my songs are filled with joy  
I can feel my soul  
And feel my heart beating for the very first time  
No I'm not your man  
But I'm making plans  
Like your already mine

Has anybody ever told you  
That your eyes shine like pearls  
Has anybody ever told you  
That your one special girl  
Has anybody ever showed you  
That my love is here to stay  
And you stole my heart on this very day  
And I can't let you walk away

Walk away, can't you let you walk away from me  
Gotta keep you and there's is something I want to tell you  
Tell you in your ear, baby isn't it clear that I want you

[Repeat chorus]
