Marques Houston

Trouble burning up my mind  
She's a spot in the shade  
Thirsty for her all the time  
She's my cold lemonade

If there was a way i could put it, make it  
So that you could understand  
That I'm only half a man without her (oh no)  
Gonna give my all, my heart, my mind, my soul, take it  
Ain't no other word that can describe it  
Baby baby you are

Wonderful  
Your style, your vibe, your body  
Amazing  
Oh just gotta tell somebody  
Wonderful  
Hey! to put it simply you are  
Everything (everything babe)  
You're so wonderful

Music to my melody  
You are where i belong (yeah)  
Girl together you and me  
We're a beautiful song

If there was a way i could put it  
Make it  
So that you could understand  
That I'm only half a man without her (yeah)

Gonna give my all, my heart, my mind, my soul, take it  
Ain't no other word that can describe it  
Baby baby you are

Wonderful  
Your style, your vibe, your body  
Amazing  
Oh just gotta tell somebody  
Wonderful  
Hey! to put it simply you are  
Everything (everything yeah)  
You're so wonderful

Baby let's meet up on the moon  
Lets watch the stars get  
Jealous of your shine (hey)  
Nothing that better for me (nothing better baby)  
Girl everything is too wonderful

Wonderful  
Amazing (so amazing baby)  
Wonderful (to put it simply you are)  
Everything (everything girl)  
You're so wonderful
