

Glass

Marsha Ambrosius

Tried to talk to you you walk away
I reach out my hand only the pain
Is so hard oh what more can I do
To get through to you

Yeah, lost in this space I feel so alone
No one to show me the way to go
You know that it's been a long road
I need to find a way home

You can see through all the tears I've cried
And you couldn't know how I feel inside
I'm like glass (glass)

Million pieces a shattered heart
Tried to give everything that I got
Feels like you never know me at all
Oh I am falling down

I'm so fragile but appear to be strong
Cause all my life I put up a wall
To try to escape from how I really feel
But when you look into my eyes

You can see through all the tears I've cried
you couldn't know how I feel inside
I am breakable handle me with care
And with you I have tried to be there
(tried to be there)
You just don't know how I feel inside
I'm like glass
(I'm like glass)
I'm like glass
(I'm like glass)

Those been hurting me
Over and over again
I can't keep it bottled up no more
Got to let it go
Make my heart move on
Cause I can't do this no more

You can see through all the tears I've cried
You couldn't know how I feel inside
I am breakable handle me with care
And with you I have tried to be there (there)
You just don't know how I feel inside
I'm like glass (glass)
I'm like glass (glass)
glass
glass
I'm like glass (glass)
