

So Good

Marsha Ambrosius

Hey, baby, it don't even matter
We can do whatever you wanna do
Yeah, I wanna do you, right now
Right here, yeah, come here

I can tell by looking at you
That thing is good, good good good
I can't help myself around you
I wanna do every thing
I ain't gonna front, I'm upfront
Blatant 'bout what I want
I want you here right now, baby
Look at me the way that you do
You want me too
And I don't wanna waste no time

So make it rain and let it fall
Down on me,
I can't believe
That your love so good
So good
Your love so good, so good
So good to me

Outta space I'm on a high to
That shit is good
Don't let me come down
Put your lips where I can find you
And take me now
Run it deep like a running back,
Make you work it back,
Make me want it bad
Make me want you bad, baby
Till the sun comes up and skies blue
And over again I'll take it babe

Just make it rain down on me
I can't believe that your love is so
Good
So good
Your love so good, so good
So good to me

You pulling on my hair
You're right between my legs
You're kissin' on my neck
I'm scratching on your back
I say baby go head
Go hard, I say go ahead
Baby, take it there

Just make it rain
Let it fall down on me
I can't believe that your love is so
Good
So good
Your love so good, so good

So good to me
