

## Live It Up

Marshall Crenshaw

You never want to comfort me  
Knowing what you really need  
You always say you've had enough  
You never want to give it up

But everybody's got to move and  
Everybody's got to groove  
Everybody needs love sure enough  
Everybody ought to live it up

Well, what did I do that was wrong?  
I just want to have some fun  
We've been holding back for too long  
And I want to live, we've gotta live it up

I've got to ease your mind  
I know I'll have a bit of luck  
To make you have a good time  
I've got to make you live it up
