

Try

Marshall Crenshaw

You know I'll try
What good it's gonna do, I can't say
But don't you know I'll try
With all my heart every day?
Though nothing is clear
And I'm wondering how to save what's left of us now
Why don't we try?

Try you and I
You know your eyes
Reveal all that's locked in your heart
And whenever you feel
Like everything's falling apart
I should be the one to come through for you
It isn't always easy to do

But you know I'll try
I'll try till I die
Oh no, no, no
The way you move me is a serious thing
Oh no, no, no
Let's wait and see what tomorrow might bring
