

What Time Is It

Marshall Crenshaw

What time is it?
I've just got to know.
What time is it?

Three more hours to go
Till I hold her in my arms
And tell her that I want her for my own.

What time is it?
Tell me once again.
What time is it?

Two more hours and then
I'll kiss her lips
While the magic of the moonlight makes her mine.
Better hurry up and put my tie on.
Better hurry up its almost time.

What time is it?
Just one hour more
What time is it?

Now I'm at her door
And my heart is beating fast.
The moments here at last
What time is it?
Its time for love
