

# Whatever Way The Wind Blows

Marshall Crenshaw

From now on I'm gonna do what's right  
Been thinking this over for many long nights  
And on this decision I'm gonna follow through  
Whatever way the wind blows

I'll be around  
I'll be around for you  
You say the whole round world has gone thoroughly mad  
It's so hard to trust in anything said  
And a sense of doubt is the only thing that's true  
I say whatever way the wind blows

I'll be around  
I'll be around for you  
Whatever wind of change goes tearing across this world  
I'm always gonna be close beside you, girl  
From now on I'm gonna do what's right

Been thinking this over for many long nights  
Ever since you told me that you really loved me too  
Whatever way the wind blows  
I'll be around
