

# Bleeding All Over You

Martha Wainwright

There are days when the cage  
Doesn't seem to open very wide at all  
There are others that would shock  
The most indiscriminate lovers of all  
My heart was made for bleeding all over you

You've got a girlfriend and I can only  
Talk about her for so very long  
Then my mind turns into my heart  
And whispers into that dark cave that I've been wronged

My heart was made for bleeding all over you  
And I know you're married but I've got feelings too  
But I still love you

You moved up North and got a farm house  
There's cow shit in your brain and love in your heart  
I'm in the city and I'm trapped between  
Two buildings then having to start at the start

You've got a daughter, now you're a father  
You have your pack and they are wild

My heart was made for bleeding all over you  
And I know you're married but I've got feelings too  
And I still love you  
I still love you

I've got feelings too  
And I still love you  
Yes, I still love you
