## **The Car Song**

## Martha Wainwright

Turn the key & warm up the vehicle Window's foggy & I'm in my little bubble Some are red, some are yellow Black & blue & different colours Mine is green Let's go Let's go Let's go play footsie with the pedal Get on the road It glides underneath me Yeah, it rides so sweetly I love driving in my car In my car I can see outside I have wiped off the mirrors & they shine like glimmering glass Oh no Oh no Oh no, is that you I see? Take a left quickly Green light, go Red light, no No matter on the yellow It's so fun driving in my car In my car I can do anything Drive up & down the road Maybe listen to the radio I think I know this song Light up a cigarette Green light, go Red light, no No matter on the yellow It's so fun driving in my car
