You've Got A Way

Martha Wainwright

When you are gone I'll cry When you are gone I'll cry But until then I'll crack a smile I'll stay dry for as long as I can Oh baby, you've got a way with me I will go home tonight And rest my head on the sight Of you for as long as I can Oh baby, you've got a way with me, with me And the birds fly high in the sky high And we watch them, wishing and hoping That we could be them Oh baby, you've got a way with me Oh baby, don't ever leave me
