Nothing Like You've Ever Known

Marti Webb

Nothing like you've ever known That's the life I thought that I was gonna show you Made you choose her love or mine That's one 'happy ever after' that I owe you

Married man... always looking at your watch I wanted to spend more time than twelve till two Loving you... and...

Nothing like we've ever dreamed I'd have sworn that was the life we would be living We were both expecting more And we can't give any more than we are giving

Something new... that is all it was, you know It would have been better if we stayed as we Used to be... but

Nothing like you've ever known That is how I thought all your tomorrows would be Everyday I look at you And I stop and think how happy you still could be.
