

A Magical Place

Martika

Martika:

You slay me
you bring me hope in a world
full of fear
and you get me off to start
that never stops
like wild horses on a windy day
i feel you now
and you're blowing thru me like a melody
within my heart, so magical

Christopher max:

Lord help me
i've found a one way ticket to ecstasy
i can't turn it down
when all that's left behind me is a pool of tears
don't let me drown
i'll never find another who can take me there
where my heart can feel, so magical

chorus:

Over the sun, beyond the moon
where all desire lies
thru time & space
a magical place
i've found within your eyes

both:

don't tell me
i know what you're thinking & it's all
o.k. with me
cuz there's nowhere deeper i could ever feel
i'd wanna be
with body, mind & soul
i give myself to you
wont'cha set me free?so magical

chorus

Both:

Pretty soon someday, one day
for always
we're gonna find, we're gonna find out
that one day is today
and we've never wasted our time with love

chorus

thru time & space
a magical place
i've found within you
