

# A Magical Place

Martika

Martika:

You slay me  
you bring me hope in a world  
full of fear  
and you get me off to start  
that never stops  
like wild horses on a windy day  
i feel you now  
and you're blowing thru me like a melody  
within my heart, so magical

Christopher max:

Lord help me  
i've found a one way ticket to ecstasy  
i can't turn it down  
when all that's left behind me is a pool of tears  
don't let me drown  
i'll never find another who can take me there  
where my heart can feel, so magical

chorus:

Over the sun, beyond the moon  
where all desire lies  
thru time & space  
a magical place  
i've found within your eyes

both:

don't tell me  
i know what you're thinking & it's all  
o.k. with me  
cuz there's nowhere deeper i could ever feel  
i'd wanna be  
with body, mind & soul  
i give myself to you  
wont'cha set me free?so magical

chorus

Both:

Pretty soon someday, one day  
for always  
we're gonna find, we're gonna find out  
that one day is today  
and we've never wasted our time with love

chorus

thru time & space  
a magical place  
i've found within you
