

# Flow With The Go

Martika

Flow with the go  
I say what and you say rock me  
I say what and syou say rock me  
I say what and syou say rock me  
I say what and syou say rock me

Sunny day keep the clouds away  
Holding back with the fact that i said so  
Got things to do cause i'm after you  
I'll be runnin i'll be going and bumpin you  
On the right track keep looking back  
Meet me get it on, say  
Singin a song follow along, look at my thong  
Ding dong, king kong at the door

Come on  
You gotta like the one candlelight  
I can tell you that its better when the mood is right  
Just standing there you can't be scared  
From the brub in the club, your ass is here  
I'm shakin it, i'm baking it, saute, soufflee, flambaying it  
My pulse fits fire with desire, so flow with the go with the grove to go

Step by step, tell me what you like  
Heart to heart, hope you like my mic  
Ain't no shame, ain't no game  
Hit this and you'll never be the same

I wanna make a move, i tell you look into my eyes  
I only need a kiss then you're gonna wanna ride  
All night, all day, be patient

I wanna make a move, i tell you look into my eyes  
I only need a kiss then you're gonna wanna ride  
All night, all day, be patient

Move over, rover, let me take over  
Don't matter if you keep your shoes on  
You might need traction to get some action  
Martika gonna pick it with your sneakers on

Mere joto de pas espanoso ablo est te nocho  
E same es con loco

Gonna vip's be on my list, show me you're gonna  
Work it like an activist  
Pick the speed i wanna beat your bio  
Quid pro quo, then it's for hire  
Wanna make a picture show  
So flow with the go in the grove to go

I wanna make a move, i tell you look into my eyes  
I only need a kiss then you're gonna wanna ride  
All night, all day, be patient  
All night, all day, be patient

No peak below, no mini bar

You better be brining me a balkazar  
Black widow in the house, a dare with my hair  
Make me wanna throw my hands in the air

I ain't poppi, put them things up, don't need no choice to bling up  
I can do it with my own two hands  
That a man you can have if you don't understand

Sometimes i get bent out of shape  
But trippin is a nice escape  
Alot of girls say its my duty, cause i'm  
Rooti tutti fresh and fruitie, with an  
Apple bottom booty

A domie only on ice, sure is nice, romancing fans  
You stand a chance tonight  
So easy as apple pie  
So flow with the go with the grove to go

I wanna make a move, i tell you look into my eyes  
I only need a kiss then you're gonna wanna ride  
All night, all day, be patient  
I say what and you say rock me  
I wanna make a move, i tell you look into my eyes  
I only need a kiss then you're gonna wanna ride  
All night, all day, be patient

I wanna move, then i'm kiss you then you're gonna wanna ride...I wanna  
Move, then i'm gonna kiss you then you're gonna wanna ride

All night, all day...kiss you then you're gonna wanna  
All night, all day...kiss you then you're gonna wanna  
All night, all day...kiss you then you're gonna wanna  
All night, all day...kiss you then you're gonna wanna  
All night, all day...kiss you then you're gonna wanna
