

# Take Me To Forever

Martika

Situations come along  
And I can't understand myself sometimes  
Feel as if I were drowning  
Won't you lift me up?

And sometimes I can't face it, no, no  
When I take a look inside  
And I just don't like what I see  
Is there nowhere left to hide?

Because I think about tomorrow  
And what I really know  
Is that I can't contain this feeling  
Growing deep in my soul

(Chorus)

Take me to forever  
Point me to the sky  
'Cause I don't like it  
And I don't wanna spent another sleepless night  
We can be together  
You can make it right  
And I won't feel like my life was a waste of time

Reaching in the darkness, mm-hmm  
My innocence is long, long gone  
I'm caught up in this loneliness  
Has time done me wrong?

'Cause when I look into the mirror  
I see what I've become  
And I've lost my own direction  
Only you, only you can lead me home

(Repeat Chorus)

Time will turn all the pages into memories  
Ever since you touched my heart  
I have wanted to be free
