

Let's Celebrate

Martin Chodúr

I've got things to do on Sunday evenings
When I see you around
We get out of present into old times
We walk the the sixties ground.

Let's celebrate
Let's celebrate
Celebrate the love and music let's celebrate it now.

We've never heard of CDs guys we're digging vinyl
We keep the music in black grooves
That guy can sing that's what matters here
Everybody shivers as he moves.

Let's celebrate
Let's celebrate
Celebrate the love and music let's celebrate it now
