

## Let's Celebrate

Martin Chodúr

I've got things to do on Sunday evenings  
When I see you around  
We get out of present into old times  
We walk the the sixties ground.

Let's celebrate  
Let's celebrate  
Celebrate the love and music let's celebrate it now.

We've never heard of CDs guys we're digging vinyl  
We keep the music in black grooves  
That guy can sing that's what matters here  
Everybody shivers as he moves.

Let's celebrate  
Let's celebrate  
Celebrate the love and music let's celebrate it now
