if night's turnin' ina new day
we gonna melt ina the golden sun sitting by the bay heh

so come on baby and dance your belly
move and groove it so irie yeah
feeling this ya night is blessed blessed
with sweet caress

and all I want is a lively woman
dancing and sparkling like a star from heaven and
all I want is noble woman
clever and smart to let the higher love burn and
all I want is a trully woman
rootsy and fresh with words and action and
and all I want is a humble woman
darling yeah you got it so keep your faith strong and

and I will hold you forever never let you go
I will row down Jah river right beside you
in my heart is a fire it never will be through
Songtexte and my only desire is holding you girl

well keep your faith darling keep it your pace
I thank God that you don't run the arrogant race yeah
I never judge a book by its cover
I read it page by page and I wanna discover
what a good and sweer sould needs and desires
then I'm turning up the beat come to set you on fire
and I know this Jah music it will make you smile
brighter
and I know it will let us fly higher higher

over the concrete jungle we are living in
and all of them people we are living in sin
well but no matter that we're rudies and fools
I know that we can learn to be muck more better and
cool
so he without sin come and cast the first stone
to all wolves in sheep's clothes we sing leave us alone
he without sin come and cast the first stone
to all wolves in sheep's clothes we sing leave us alone

and I will hold you forever never let you go

I will row down Jah river right beside you
in my heart is a fire it never will be through
and my only desire is holding you girl

keep your faith my darling
in everytime when you are down and fallin'
keep your faith my baby
I would a never let you down no no way
