## **Rise Up**

## **Martin Jondo**

I saw we rise up and welll never give it up Jah never loose Jah power and we never loose Jah love My people rise up out of the evil dust [2x]

Born in Babylon but me know me can t stay So me taking Jah train while dem are fading away Falling asleep while dem think dem are awake You got to shake Dem before it s to late yau

Evil greedy thoughts ruling over mankind Still dem asking god oh why Answer man a born with own hands Own hearts own sense yau

With your own to hands you got to work With your own to hands you got to fulfil your word With your own to hands you make peace of war Peace of war

With your own to hands youll make it work With your own to hands you can change dis ya world With your own to hands you rule over your life Rule your life

I saw we rise up and we□ll never give it up Jah never loose Jah power and we never loose Jah love My people rise up out of the evil dust rise, rise, rise [2x]

Rise up, rise up, rise up

Too many times me saw lie ina dem face Burning another hut to glorify dem race yau Selling telling what dem never eaten up before But Jah Jah rain fall for sure

How many rhymes of Jah Jah people dem ignore Killing another culture to get more and more But no matter what dem say and na no matter what dem do Natty dread push on through so

Come a come a dance my sister You come a come a dance my brother Come a come a dance my sister Dance with me my brother Come a come a dance my sister You come a come a dance my brother We don t need to suffer no longer

I saw we rise up and welll never give it up Jah never loose Jah power and we never loose Jah love My people rise up out of the evil dust rise, rise, rise [2x]

Rise up, rise up, rise up Rise, rise, rise [2x]
