

## Faith On The Table

Martin Sexton

When you're down and feeling left out  
Wondering what this pain is about  
Here's something mother taught me  
When I was a child  
It's passed down from an old generation  
To let us all in on the new revelation  
See the light and comfort will be on the way

I've got a little faith on the table  
Find a little hope in the jar  
There's got to be sanity 'round here somewhere  
And then shake it up.

A simple message, simple virtues three  
But it's not as easy as it looks on TV  
Mix these with a little bit of sadness  
And you will find the joy, practice boy.

I've got a little faith on the table  
Find a little hope in the jar  
There's got to be sanity 'round here somewhere  
And then shake it up.

And with your honesty and your open mind  
Find the willingness of a child

It helps a lot when I don't act like a loser  
But I know mama these lyrics gonna confuse ya  
It's like a sudsy train raging through my one track mind.

I've got a little faith on the table  
Find a little hope in the jar  
There's got to be sanity 'round here somewhere  
And then shake it up.  
Got to shake it up.
