

Something Better

Martin Solveig

Ooh, my darling, I'm thinking
About how my life has changed me
Yeah you are passion, sensation
I feel like I'm a different man now

Ooh, so strong, for too long
I've been searching for a girl like you
Change it all
'Cause since I found you really made it better

I've run for something better
I dreamed of something better
I found something better
There's something better for me

Something better
Yes something better for me

Now, I'm caught up, so tight up
But don't be a player baby
I could wait for more, more action
I'm checking your reaction

('Cause I wanna do it and I want you to be happy with it)

I don't care, sounds fair
To flee dismal reality
'Cause you change it all
'Cause since I found you really made it better

I've run for something better (you made it better)
I dreamed of something better (you made it better)
I found something better
There's something better for me (hey)

Darling I've been waiting all my life
And I'm so glad that I found you
You and I can make it without a doubt
I'm so thankful for having you (I'm thankful, thankful)

There's something better for me

'Cause I've run for something better
'Cause I dreamed of something better
There's something better for me
I've run for something better
I've dreamed of something better
You're something better for me
I found something better cause you are (something better for me)

There's something better for me...
