

# City of Love

Martina McBride

This is no  
Yellow brick road  
We've been travelin' on

A river of tears  
Washed us here  
We're right where we belong

We rode it out  
No we didn't drown  
And look at what we've found

R: Every street we take  
Is paved with truth  
If a mountain's in our way  
That's a mountain we move  
Baby there ain't nothin' we can't do  
Since me and you  
Built a city of love

Through shiftin' sands  
With our own hands  
We dug to solid ground

Where we found out  
What love's about  
Yeah there's no stoppin' us now

Yeah on our own stone by stone  
We built a fortress strong where

R: (2x)
