

Don't Cost a Dime

Martina McBride

It's a big world to walk through, honey
And if you've got love, you don't need money
You're gonna get caught in the toughest times
You hold each other and you hold the line
You kiss on the mornings when the sun won't shine
And that don't cost a dime

It's a big world to walk through, honey
And if you've got love, you don't need money
You can't get lost in the dollar signs
You take each night one day at a time
You live on water until it turns into wine
And that don't cost a dime

Climb out of bed and step outside
Look up ahead, it's all blue sky
You already have what really matters most in this life

It's a big world to walk through, honey
And if you've got love, you don't need money
You're gonna get caught in the toughest times
You hold each other and you hold the line
For what it's worth, there's my advice
And that don't cost a dime

That don't cost a dime, yeah
Love don't cost a dime, yeah, yeah
