

Tell you baby  
I've been waiting  
For so long  
I want it over  
It's pleasant waiting  
It's pleasant hating  
Placenta fed  
Get out of my head  
Life's a laugh  
When you complain about  
The way that I give  
All I have to give  
You say you want more:  
You can't sustain without  
You wanna live  
But you don't know how

Overthinking,  
Smoking and drinking  
You're in my head  
It's time for bed  
One word my lover  
I can be hollow  
When you say  
Goin' away

Cut you in half  
See how you feel without  
I want you to live  
But you don't know how  
Am I gone?  
I want to be reborn  
Thought I was in love  
Tell me was I wrong

You know we were wrong together

Ain't it funny, they say it's sunny  
And come the cloud:  
My inside out  
Water bed  
In my head  
It's pleasant waiting  
It's pleasant hating

They say it's fine  
And then come the storm  
No memory of ever feeling warm  
I don't mind  
The rain and such  
But I miss the warm  
The warm of your

You know we were wrong together  
You know we were wrong together  
You know we were wrong together  
You know we were wrong together

You know we were wrong together  
Together  
Together  
Together  
Together  
Together
