## **After The Storm**

## **Marty Robbins**

We both have fought the storms of life together And at times it seemed our world was gonna end We've touched the thorns of life now we know better And we're more in love now than we've ever been

After the storm comes the sunshine The clouds are gone and the world is tame Into each life there will be showers But don't the world look brighter, after the rain

Well the sweetest love is when we're back together And it's just like a second honeymoon And we touched the thorns of life now we know better And the rain just helps to make the roses bloom

After the storm comes the sunshine The clouds are gone and the world is tame Into each life there will be showers But don't the world look brighter, after the rain Don't the world look brighter, after the rain
