

# All Around Cowboy

Marty Robbins

Well, all around cowboy, I've won it six years in a row  
All around cowboy means champ of the big rodeo  
I made me some money, I had me some good times  
All that I've had have been few  
Till a rodeo queen made the all around cowboy  
Look like an all around fool

I was the cowboy that said he would never be rode  
I even bragged how I'd never be branded or broke  
I was doin' right well till this blonde, little filly  
Rode into my life like a dream  
And the all around cowboy fell head over heels  
In love with the rodeo queen

The moment I looked in her blue eyes I knew I was gone  
I tried to hide them, but the feelin's I had were too strong  
She showed the world what an all around cowboy could do  
She showed the world how an all around cowboy  
Could look like an all around fool

She made me feel like a horse without any fire  
Too late I realized, breakin' me was her desire  
She rolled me and raked me with spurs that left such a hurt  
She left me broken and she left me cryin'  
Out there in the rodeo dirt

The moment I looked in her blue eyes I knew I was gone  
I tried to hide them, but the feelin's I had were too strong  
She showed the world what an all around cowboy could do  
She showed the world how an all around cowboy  
Could look like an all around fool  
She showed the world how an all around cowboy  
Could look like an all around fool
