

## If I Could Cry

**Marty Robbins**

If I could cry I'd ease this aching heart inside  
But though I often try the tears stay hidden deep inside  
They just won't start though none can take your place in my heart  
I should let go but the hurt is just too deep to show  
I guess it's just my pride what can I do (what can I do)  
Though a tear may start to form  
Each time I hold your warm warm memory near  
Until I die I guess that I will never cry for you  
Though a tear may start to form...
