

# My Blue Heaven

Marty Robbins

You're the only star in my blue heaven  
And you're shining just for me  
You're the only star in my blue heaven  
And in dreams your face I see.

You're the guiding light that brightens up the night  
Till you haven't sight my heart is lonely  
You're the only star in my blue heaven  
And you're shining just for me

(You're the only star in my blue heaven  
And you're shining just for me)

You're the guiding light that brightens up the night  
Till you haven't sight my heart is lonely  
You're the only star in my blue heaven  
And you're shining just for me...
