## **Turn The Lights Down Low**

## **Marty Robbins**

Turn the lights down low let your feelins go Now's the time when dreams come driftin' in Turn the Hi-Fi on play that certain song One that brings the memories back again

Things that might have been

If you kept our love closer to your heart

Safe from other lips that tore it all apart

Then I wouldn't hide teardrops deep inside

Dream along when lights are turned down low

And dream along when lights are turned down low

When lights are turned down low
