

You're Not The Only One

Marty Robbins

Has the wondering started
Is she bein' untrue
Has the lovelight departed
Has she found someone new
You're not the only one
You're not the only one
It happened to me
It happened to me

Has she started forgetting
Does she answer your call
Have you started regretting
That you love her at all
You're not the only one
You're not the only one
It happened to me
It happened to me

Her promises wilted
Like leaves on a tree
And she left me
To cry endlessly
You're not the only one
You're not the only one
It happened to me
It happened to me
