Beyond The Great Divide

Marty Stuart

There'll be greener pastures Across that border line We'll see new horizons, my darlin' Far beyond the great divide

Pools of clear blue waters Star light in the sky You'll be mine forever, my darlin' Far beyond the great divide

Somewhere in the distance Northern lights will shine You'll be there beside me, my darlin' Far beyond the great divide

You'll be mine forever, my darlin' Far beyond the great divide
