

Country Girls

Marty Stuart

Well I live in the city and I've been around
Seen every single woman in this old town
But all they do is bring me down
Gonna find me a country girl
City life is fast and free
And all these girls are a sight to see
But to tell you the truth, they don't just rock me
Gonna find me a country girl

Country girls, country girls
Sweetest thing in this 'ol world
Pretty as pie, pure as pearl
Gonna find me a country girl

Yeah all the things you heard are true
You wouldn't believe what city girls do
But man that just ain't nothing new
Gonna find me a country girl

Country girls, country girls
Sweetest thing in this 'ol world
Pretty as pie, pure as pearl
Gonna find me a country girl

City air is hard to breathe
And the things they say you can't believe
Guess it's time for me to leave
Gonna find me a country girl

Country girls, country girls
Sweetest thing in this 'ol world
Pretty as pie, pure as pearl
Gonna find me a country girl
Gonna find me a country girl
Gonna find me a country girl, girl, girl, girl
