

I'll Love You Forever (If I Want To)

Marty Stuart

Oh we tried and we failed, and you left me
'Cause I didn't fit the image in your mind
You tell me to find some else to love me
Oh now baby, aren't you getting out of line

Don't tell me what to do
'Cause you've already said we are through
I'm a page that you've turned
I'm no longer your concern
Don't tell me what to do
I'll love you forever if I want to

You're no longer in charge of my thinkin'
You're already in love with someone else
So if I'm into honky tonks and drinkin'
I'm a big boy, I can take care of myself

Don't tell me what to do
'Cause you've already said we are through
I'm a page that you've turned
I'm no longer your concern
Don't tell me what to do
I'll love you forever if I want to
No, don't tell me what to do
I'll love you forever if I want to
