## If You Wanted Me Around

**Marty Stuart** 

I'd go lookin' for you if you wanted me to If you wanted me around And I'd go anywhere as long as you were there If you wanted me around

If you needed me, well, baby, there I'd be You know just where I can be found I'd be there with you, if you asked me to If you wanted me around

If you needed me, well, baby, there I'd be You know just where I can be found I'd do all that I could, yeah, you know I would If you wanted me around If you wanted me around If you wanted me around
