

Kiss Me I'm Gone

Marty Stuart

I've got one last chance to hold you
While the fire is good and hot
We've got to make the most of this burning love
'Cause right now's all we've got
So squeeze me a little tighter
I'll be back before too long
Well baby you know I've just gotta go
So kiss me, I'm gone

Honey that spell, that you put on me
Got me walkin', talkin' things that I never dreamed
I won't be worth a thing when I get back home
I done stayed too long
So kiss me, I'm gone

You've got kisses sweet as honey
Got me eating right out of your hand
You sure 'nuff got a line of talk
That a man can understand

All the girls around here been talkin'
Wonderin' just what's going on
As the door slams, I am deep in love
So kiss me, I'm gone

Honey that spell, that you put on me
Got me walkin', talkin' things that I never dreamed
I won't be worth a thing when I get back home
I done stayed too long
So kiss me, I'm gone
