

Rocket Ship

Marty Stuart

I got a rocket ship baby hop right in
Well I'm gonna take you for a little spin
Buckle up honey and don't look down
We're gonna go faster than the speed of sound
Come on baby, take a trip
Ride around in my rocket ship

I got a rocket ship baby, climb aboard
It's a hot rod honey, it ain't no Ford

It's got chromium pipes and fold away wings
Yeah it's a rockin' little rig and it really swings
Well it's out of this world honey it's so hip
Come on baby in my rocket ship

It's ten, nine, eight ,seven, gonna fly you up to
heaven
Six, five, four three, come on baby take a trip with me
Three, two one, go, this things' gettin' ready to blow
I got a rocket ship baby, I got a rocket ship baby
I got a rocket ship baby, I got a rocket ship baby

I got a rocket ship baby, gonna fly you around
Any minute now we'll be leavin' the ground
I'll take you to the moon and the stars above
We'll even touch down on the planet of love
You'll be amazed, you'll really flip
At the things we can do with my rocket ship

It's ten, nine, eight ,seven, gonna fly you up to
heaven
Six, five, four three, come on baby take a trip with me
Three, two one, go, this things' gettin' ready to blow
I got a rocket ship baby, I got a rocket ship baby
I got a rocket ship baby, I got a rocket ship baby
