Sweet Love

Marty Stuart

Here I am standing with these teardrops in my eyes Hoping maybe someday you will change I heard that same ole story too many times before You tell me that you love me then you turn around and run I just want your sweet love I can't stop coming around You know that your sweet love Someday it's going to tear me down, down, down, down, down, down, d-d-down

Here I am still waiting like the fool I've always been Hoping maybe some day you will change I try to give you all of my heart time after time But you hang me out there like a puppet on a string

I just want your sweet love I can't stop coming around You know that your sweet love Someday it's going to tear me down, down, down, down, down, down, d-d-down
