

The Greatest Love Of All Time

Marty Stuart

I heard the sound of a train out in the distance
That takes me back to you
The only heart I ever met, as pure as it was true
Your kiss is still warm as wild mountain honey
It lays so sweet on my mind
And it helps me forget, the path of regret
And the fool that left you behind

Miles and miles of memories
Flow through me like new scarlet wine
And it's sad but it's true, that girl me and you
Had the greatest love of all time

Miles and miles of memories
Flow through me like new scarlet wine
And it's sad but it's true, that girl me and you
Had the greatest love of all time
Had the greatest love of all time
