

# You Can't Stop Love

Marty Stuart

It's greater than the world  
Wider than the sky  
It's strong enough to make mountains crumble  
Or make a grown man cry

It can melt the coldest heart  
Put broken things together  
Finds what is lost doesn't count the cost  
And it goes on forever

You can try to drown it in a sea of tears  
Lock it up in chains for a million years  
Run from it, hide from it, one thing's clear  
You can't stop love, no you can't stop love

It's freer than the wind  
It shines out in the dark  
It's bigger than all of Heaven and earth  
It's small enough to fit inside your heart

You can try to drown it in a sea of tears  
Lock it up in chains for a million years  
Run from it, hide from it, one thing's clear  
You can't stop love

It's something that you can't forget  
Throw it away and find regret  
Go ahead and fight it and give it your best  
But you can't stop love, no you can't stop love

You can try to drown it in a sea of tears  
Lock it up in chains for a million years  
Run from it, hide from it, one thing's clear  
You can't stop love

It's something that you can't forget  
Throw it away and find regret  
Go ahead and fight it, give it your best  
But you can't stop love, no you can't stop love  
No you can't stop love
